DT4.18

Ready-to-Run 1/18 Scale Electric 4WD Desert Truck

Hit the trail with LEDs and true truck looks!

Tough, fast, and fully assembled, the DT4.18 comes out of the box ready to take on the roughest country and come out on top. It's not only complete; it's loaded with performance extras you wouldn't expect to find in a beginner-friendly truck. An M370 motor gives it a 20+ mph top-end for straightaways; an adjustable suspension, Big Bore oil shocks and multiple mounting options help it absorb bumps and jumps with ease. Dual rates on the 2.4GHz radio make it a great truck to learn on and more fun to drive when you're ready.

DIDC0046
Length: 11.8 in (302 mm)
